### Level 1 Certification in San Antonio, TX, 29-31 July 2005

Sherry Fotopoulos will conduct a Level 1 PMC Certification class at Studio SFoto, 5822 Oak Run, San Antonio, TX, Fri thru Sun, 29-31 July, 9am-5pm daily. The cost of this class covers a remarkable list of inclusions---all instruction, studio space, bench fees, firings, finishing, MATERIALS, the book *Introduction to Precious Metal Clay* by MaryAnn Devos, an 11-pc tool kit, a 1-year membership in the PMC Guild and the opportunity to take advantage of certified discount pricing on all PMC products.

Register toll-free at 1-866-762-2529 or [sherryfotopoulos@hotmail.com](mailto:sherryfotopoulos@hotmail.com).

### Atlanta Artworx presents Soldering for PMCs!!

In this class you will learn basic (and quick) techniques for soldering ear posts, 3-pc pin backs (hinge, catch and stem) and bails onto fired PMC+ and PMC3 jewelry. Using a hand-held portable torch you will be able to finish your pieces for immediate wear as never before. Sherry's approach is simple, direct and geared toward non-metalsmiths. Come join the fun and add soldering to your PMC skills! All necessary tools (including pickle pot and vibratory polisher) supplied.

**Level:** Open to all levels

**Class format:** 3 hour, 6-9pm

**Kit contents:** 10 SS ear posts, 4 3-pc pin backs (hinge, catch, stem), rivet material, 10 copper and/or brass earring blanks, 4 copper and/or brass pin blanks, EZ and EX-EZ paste solder, FS bail material.

**Supplies provided by students:** None necessary. May bring earrings, pendants or pins (optional).

**Fee:** \$95.00 (includes kit)

**Maximum students:** 10

### Special Invitation to have your metal clay work published!!

Hello Metal Clay Enthusiasts---I am currently writing a book on using metal clay to create jewelry and more! One very important feature of this book will be to showcase work from **ALL** levels and types of metal clay artists. Previous books show the work of the "biggies" or a single artist or only one type of metal clay, either PMC or Silver Art Clay. I've worked with both since 1997 and want to invite everyone to send me images of **YOUR** successes. Novice, intermediate or advanced students, instructors, ceramists, polymer clay artists, quilters, glass artists, fiber artists, everyone who has used metal clay in their work. I want your photos or slides, e-mail, discs, CDs...any way you choose to send your image(s). Don't worry about the quality of the image(s). When your work is selected arrangements will be made for publication quality photographs. Please help me present your work

to the Metal Clay world.

### **Introducing the . . . PMC123 Rubber Block**

Having trouble balancing pieces on the edge of the block? Wondering how to protect those fragile findings like ear posts and pin backs? Are you looking for ways to flatten or dome your pieces without marring?

**PMC123.com** brings you the answer to these questions and more. For the first time ever you can enjoy all of the great uses of the rubber block along with new capabilities. The square 3/4"x3/4"

more versatile .

opening through the block allows you to work in the middle area of the block without fear of bending ear posts, bails or other delicate details on the back (or FRONT!) of your jewelry pieces. Burnish or brush with as much pressure as you want without breaking or bending projections on the opposite side. Now you have four solid sides and two "open" sides making the block lighter, easier to handle and so much

This product available exclusively thru [PMC123.com](http://PMC123.com).

Order yours today at the **Introductory price of \$3.95 each**

(use **Coupon Code CRB958** at checkout to receive discount.)

(Offer good through July 31, 2005) Retail price \$4.25
